

# THEN & NOW

## Royal Mill, West Warwick, Rhode Island

*The Royal Mill in River Point,  
Rhode Island in 1904. The towers  
(in black) were reduced in height  
after a fire in the 1920s.*

In this section each page contains two photos: an old family photo superimposed onto a current photo or in the photo below, a current photo was superimposed onto a photo taken in 1904. Using Adobe Photoshop, the photo was cut, sized and positioned onto the background photo. In the following photos, the edges were created using the "feather" tool.

Paul J. Hamel

*Royal Mill workers in November, 1904. The color photo was taken from the same location during the mill's renovation in May, 2006.*
